Expand Your Literature-Based Resources and Your Curriculum

Selecting Bookfolio and BookfolioPLUS titles to correlate with your curriculum is now easier using the Collections in our Curriculum Series. You may choose to purchase one or more titles within a collection at our standard pricing for single or multiple titles, or purchase the entire collection at our best discounted price. A brief description of each collection in the Curriculum Series follows. Planning and Purchasing Guides are available for each collection to assist you in the selection process. See pages shown below for Level Collections.

Genre Collections

Are you planning a genre-based approach to literature? The five Genre Collections feature some of the best titles and authors representing that genre. Selecting several titles in a genre provides your students with the rich breadth and scope of a genre. Many activities will engage them in exploring the elements of the genre and thus enhancing your students' appreciation and comprehension. *(See Genre Collections)*

Level Collections

The Level Collection includes three level collections: Level I for Grades 3-4, Level II for Grades 5-6, and Level III for Grades 6-8. Each Level Collection includes 50 titles representing five genres and will meet the needs of an expansive literature program for a specific grade level. *(See pp.2-6)*

Special Collections

Are you looking for very special titles that meet special instructional or content needs? These five collections represent a broad range of significant titles-- from titles that won the most book awards to titles that made the greatest impact, from titles that are traditional classics to titles that are now contemporary classics, from titles that best represent ethnicity to titles reflecting the diversity of our multicultural society. They are the best of the best. *(See Special Collections)*

Theme Collections

Are you looking for titles that best meet your curriculum themes in social studies, language arts, science and many other curriculum areas? Our 43 Theme Collections make it easier for you to find the best choices. Each theme collection lists titles appropriate to the theme. Using our ProductBrief for each title you preview will help you make the best selection. *(See Theme Collections)*

Top Ten Collections

Do you need to select titles that will excite young readers? Start with the Top Ten titles that are the most popular with both teachers and students. Many titles have won numerous children-based awards or have appeared on widely used recommended reading lists. Choose from among the titles in collections such as The Best Sellers or the Boys' Club. Excite your students' interests with Wild Imaginings or Her-Stories so they will want to read more. *(See Top Ten Collections)*

Curriculum Series: Level Collections

Are you looking for a variety of titles for a specific grade level? The Level Collections includes three level collections: Level I for Grades 3-4, Level II for Grades 5-6, and Level III for Grades 6-8. Each Level Collection includes 50 titles representing five genres—realistic fiction, historical fiction, fantasy and science fiction, myths and legends, and biography—a broad and varied collection to support an expansive literature curriculum.
